

INTEGRATED DRILLING CONTROL SYSTEM

INTEGRATED WITH MODERN TECHNOLOGY FOR SEAMLESS OPERATIONS

The SMEC integrated drilling control system is a high-availability integrated rig control system for managing, controlling, and monitoring rig floor equipment in independent and activity-based operations. The system is designed to allow operators to focus on drilling, tripping, and stand-building processes by providing an efficient and intuitive rig floor command center.

- Advanced technology
- Interactive controls
- Multi-tool control cabinet

WHY SMEC?

Features:

- Cut down rig operation and maintenance costs
- Increases safety
- Centralized control
- Significant rig tasks Automation
- Improves response time and safety
- Simultaneous monitoring of multiple equipment
- Continuous power management
- Easy maintenance and troubleshooting
- Seamless control of rig & drill operations
- User-friendly interfaces and field-proven technology
- Provides comfortable, ergonomic work area
- Easy installation, commission, maintenance, support & repair
