

# ADVANCED PERIMETER SECURITY SYSTEM

## EXPROOF CCTV SURVEILLANCE

SMEC understands how important it is to have a close monitoring surveillance system that can withstand extreme conditions in a highly hazardous environment. Our experts listen to your requirements and custom build the setup. We install them at the right spots, test them and finally will give your team a training on how to work on it. Some additional features that makes us special are:

- Industrial Safety Compliance
- IECE X and ATEX Certification
- Stainless Steel Enclosure
- Lightning Protection
- Excellent Encoding
- High Resolution Image Sensor
- Integrated Wiper
- Up to 36X Zoom
- Low Light Imaging
- Reliable Storage for Videos
